B CLASS P.W. DEPARTMENT

E BRANCH (1)

Subject:— Sub Division.
Opening of a new — for.
Reconnaisance Irrigation
Projects in Karnatak.

B[K] — 1949.

E (1).

File No. 9492/36.

Ltd. Scott. Slip. 21 &—

In G.L.No. S.95/23324-E(I), dt. the 22nd May 1948 the S.E., S.I.C. has been asked to submit detailed proposals for opening a Sub-Dn. to collect hydrological data, establish rain gauge stations, gauge discharges of streams, etc.

2. It has also been proposed to open a Sub-Dn. to carry out the following works, vide G.L.No. 9252/36-E(I), dt. the 17th March 1948:-

(a) Soil Classification;

(b) Study of soils and sub-soils with their physical and chemical properties and suitability for drainage under perennial irrigation.

3. In the discussions held by the H.M., P.W.D., with the Secy.(I) and Rao Bahadur N.S. Joshi, S.E., S.I.C., it has been decided as under :-

"It was agreed that it would be desirable to investigate the possibilities of other Schemes in Karnatak and that for this purpose a new Sub-dn. may be sanctioned, if it has not already been sanctioned".

4. In the circumstances, the S.E., S.I.C., presumes that the intention of Govt. is to open 3 Sub-dn in all. In this connection the following observations are made.

5. Govt. has already created a Dn. known as "Water Resources Investigation Division" under the control of the S.E., E.C., specifically to investigate the Water Resources of the whole Province. The New River Gauging Sub-Dn. with headquarters at Belgaum must already ~~have~~ started doing the work of river and rain gauging, etc. If, therefore, a Sub-Dn. for collecting hydrological data, establishing rain gauge stations, etc., is now opened as proposed in the G.L. at p. / Corresp Section, it would mean the closing of the River gauging Sub-Dn. Belgaum or rather the transferring of this Sub-Dn. from the control of the Water Resoruces Investigation Dn. to the Special Investigation Circle. In this connection

attention is invited to para. 5 of the Dy. Secy.(I)'s note, dt. the 10-3-1943, in file No. 9252/36 wherein he has given reasons why it is not desirable to transfer thi Gauging Sub-Dn. from Water Resources Investigation Dn. to the Spl. Investigation Circle. On this point, the late Dy. Secy. (R/B D.A.Gadkary) has also noted, in the same file, that it is desirable that the Water Resources Investigation Dn. should compile all records re: investigation of underground and surface supplies of water. In this connection, it may also be pointed out that in D.O. letter No. 8974/36-E(I), dt. the 21st Jany. 1948, the S.E S.I.C., has been asked to do, amongst others, the work of investigation of the underground water resources of the Southern Circle. In the circumstances; it is for consideration whether the question of opening a Sub-Dn. under the S.E., S.I.C., for collecting hydrological data, establishing rain gauge stations, etc., may now be dropped only If so, the question of opening/the following two Sub-Dn may be considered :-

(a) One Sub-Dn. for Soil clasification, study of Soils and Sub-soil, etc. (dealt with in file No. 9252/36).

(b) One Sub-Dn. for reconnaisance of Irrigation Projects in Karnatak on broad lines to indicate possibilities and selection of projects, as agreed to in discussion held by H.E., P.W.D., with Secy. (I) & R.B. Joshi. This Sub-Dn. could perhaps also be requested to investigate underground water resources of Southern Circle. (Pl. see D.O. Letter No. 8974/36- dt. the 21-1-48)

6. The staff required for the Sub-Dn. mentioned in para. 5(b) above will be as under :-

1. Dy. Engr.
4. Overseers (Rs.80-5-100-6-140-10-270)
4. Sub-overseers. or Surveyors (Rs.61-3-85-4-105-5-130)
4. Auger-cum-gauge measurers (Rs. 46-3-70)
4. Auger-cum-gauge Karkuns (Rs.46-3-85)
1. Tracer (Rs. 46-3-85-4-105)
1. Computor (Rs. 46-3-85-4-105) or 1 Clerk (Rs.46-3-85-4-105)
1. Clerk (Rs. 92-8-140)
2. Clerks. (Rs. 46-3-85-4-105)
6. Peons including a Chowkidar (Sanctd.scale)
2. Boring mechanics. (Rs.60-4-140)
2. Assist. Boring Mechanics. (Scale to be proposed by the S.E. for his consideration & Govt).

This Sub-Dn., if sanctioned, will be for the period ending

the .....

9492/36/31586

the 28-2-1949 in the first instance. The papers will be refd. u.o. to the F.D. before issue of orders.

4 F.D.
P.W.R.I

The linked case referred to in these papers containing the proposal regarding opening of a sub-division for soil classification (P.W.D. file no. 9252/36) has been submitted to the D.S. (F&R) today separately. In the circumstances explained in the P.W.D. foregoing note we may agree to the opening of a second sub-division for reconnaissance of Irrigation Projects in Karnataka. The recurring cost involved in the proposal is more than Rs 5000 p.a. as such the proposal should have been ordinarily put up as a new item of expenditure for the next year's budget. It however appears from these papers that the proposal is of an urgent nature in that case, the P.W.D. may anticipate L.A's sanction and incur the expenditure on the proposal during the current year. That Deptt. may be requested to forward a supplementary demand in due course to the Fin. Deptt.

No.S.95/23324-E(I). Letter. Public Works Department
Bombay Castle, 22nd May 1948.

To

The Superintending Engineer, Special Investigation Circle

Subject:- Lift irrigation schemes on Vardha river near Mardur.

...

Reference: Your letter No.D.I.(2)/484, dated the 6th March 1948.

2. It has been proposed to open a Sub-division to collect hydrological data, establish rain gauge stations, gauge discharges of streams, etc. You are, therefore, requested to submit your detailed proposals in the matter and to state the number of posts and the period for which the Sub-division will be required.

By order of the Governor of Bombay,

Sd/- [illegible]

for Secretary to the Government of Bombay,
Public Works Department.

D.A.-Nil.

Mr. B (PL have a new) file opened. Thereafter we shall keep it in [illegible]

D.O.No.G-108 .
Office of the Superintending Engineer,
Special Investigation Circle,
Dharwar, 12th June 1948.

Dear Rao Bahadur

p.1

In their letter No.S.95/23324-E(I) dated the 22nd May 1948, Government have requested me to submit detailed proposals for

A Sub-Division to be opened "to collect Hydrological data, establish rain-gauge stations and gauge discharges of streams", etc.

I presume the Hydrology will include both "surface as well as under ground", the latter as directed by Secretary (Irrigation) in his D.O. letter No.8374/36-E(I) dated the 21st January 1948. Also vide para 2 of this office No.G-108/762 dated the 31st March 1948.

Sub A 7.6.116. 8974/36/5602 p.15 Put up AC wise Address to Y0.9252/36 22-6 Encl. ... ked case II

2. Regarding the surface Hydrology, I understand there is already a Sub-Division with headquarters at Belgaum under the Water Resources Division (attached to Deccan Irrigation Circle) where this very work (River and Rain gauging) is being done. It is presumed the proposals called for by Government will include the work of the existing River gauging Sub-Division at Belgaum (which I presume will be closed after the proposed new Sub-Division is opened). I also presume that this new Sub-Division will be under the Special Investigation Circle.

3. I may also refer to my discussion with the Honourable Minister and the Secretary (Irrigation) on the 3rd instant when the latter expressed that Government were going to sanction a separate Sub-Division for reconnaisance of Irrigation Projects in Karnatak on broad lines to indicate possibilities and selection of projects which may deserve detailed survey later on (please see item C of list of subjects discussed).

P.T.O.

It would thus appear that it is the intention of Government to open two more Sub-Divisions (in addition to the Soil Research Sub-Division, vide Government Letter No.9252/36-E(T) dated the 2nd June 1948), in this Circle.

4. Unless the work of research in underground supplies of water (Hydrology) was going to be allotted to a specialist like Mr.D.G.Limaye (as proposed in my No.G-108/502 dated 7th March 1948), I consider that rather than have one Sub-Division with jurisdiction over four districts, one for Hydrological (surface and underground) data and surveys and another for reconnaisance of Irrigation Projects, it would be far better to limit the jurisdiction of each of the Sub-Divisions to two districts and allot to each of the two Sub-Divisions, the work of both "Hydrological Data" and of "Reconnaisance of Irrigation Projects". Thus it would be desirable to have the two Sub-Divisions as under:-

(A) with jurisdiction over districts Dharwar and Karwar with headquarters at Dharwar,

and (B) with jurisdiction over Bijapur (mainly) and Belgaum with headquarters at Bijapur.

The staff required for each of these two Sub-Divisions will be as under:-

1 Deputy Engineer - B.S.E.Class II scale (Preferably one from Class I).
4 Overseers - Rs.80-5-100-8-140-10-270
4 sub-overseers or surveyors - Rs.61-3-85-E.B.-4-105-E.B.-5-130.
4 Auger-cum-gauge measurers - Rs.46-3-70
4 Auger-cum-gauge karkuns - Rs.46-3-85
1 Tracer - Rs.46-3-85-4-105.
1 Computor (alternatively an additional Sub-Divisional Clerk in junior rank) Rs.46-3-85-4-105.
1 Sub-Divisional Clerk - Rs.92-8-140
2 Sub-Divisional Clerks - Rs.46-3-85-4-105
6 Peons (including chowkidar)
2 Boring mechanics.
2 Assistant Boring mechanics.

5. I hope this will cover the information needed by Government. If, however, Government do not approve of the combination of the work of "Hydrology" and "Reconnaisance" and the consequent limitation of the jurisdiction, to two districts each, I will put up proposals separately.

6. As the question was complicated, I have dealt with it demi-officially and would reply officially on confirmation of my presumptions or otherwise.

Yours sincerely

To

Rao Bahadur A.G.Maydeo, B.A.,A.M.I.E.(I),
to
Deputy Secretary/Government (Senior),
Public Works Department,
Bombay.

D.O.No.9492/36-E(I). P.W.D.Sectt.,
Bombay, 9th Aug. 1948.

Dear

Reference: Your D.O. No.G-108, dated the 12-6-48, regarding creation of new Sub-dns. in your Circle.

It is considered desirable that the Water Resources Investigation Division should compile all records re: investigation of underground and surface supplies of water and for the sake of uniformity of working, etc. it is desirable to have the River Gauging Sub-dn. at Belgaum under one central control i.e. under the control of the Ex.Engr., Water Resources Investigation Division.

As the existing River Gauging Sub-dn. at Belgaum is collecting surface hydrological data, establishing rain gauge stations, etc. in Karnatak the idea of opening a new Sub-dn. for the same work under your control has since been dropped. It was therefore considered necy. to create only two Sub-dns., viz. the Soil Research Sub-dn and the Reconnaisance of Irrigation Projects Sub-dn. under your control. The two Sub-dns. have accordingly been sanctioned last month in G.Ls. No.9252/36-E(I), dated the 23-7-48 and No.9492/36-E(I), dated the 27-7-48.

No. BG/ 7088 of 49.
Poona 5. 1st June 49.

To

A.G. Naik, Esqr., B.E.
Superintending Engineer
Karnatak Irrigation Circle, Dharwar.

Subject:- Assistant Boring Mechanics. ....

Reference: Your letter No. G-108 dated 17-5-1949, I have to inform you that I have the following posts in my boring section. Boring Mechanics on Rs.100/- P.M. in the grade of 100-8-140-10-150 (2) Boring Operator on Rs.70/- P.M. in the grade of Rs.70-3-85-4-125, (3) Boring Mate on Rs.46/- P.M. in the grade of Rs. 46-3-85.

I presume that your Assistant Boring Mechanic is to help the boring mechanic or boring operator and as such he is to clean and oil the machine, and help the operator to run the machine. He is just like a Boring mate.

Sd/
for Agricultural Engineer to Govt.,
B.P., Poona.

No.G-108.

Office of the Superintending Engineer,
Karnatak Irrigation Circle.
Dharwar: 27 June 1949.

To,

The Secretary to Government,
Public Works Department,
B O M B A Y.

Subject: Scale of pay for Assistant Boring Mechanics.

Reference: Government letter, Public Works Department No. 9492/36-E(II) dated the 17th March 1949 and this office No.G-108, dated the 9th May 1949.

2. The duties entrusted to Assistant Boring Mechanics in this Circle are identical to those carried out by the Boring Mates in the Agricultural Department, whose revised pay scale is Rs.46-3-85.

3. The Boring Mate helps the Boring Mechanic or Boring Operator and as such he is to clean and oil the machine and help the operator to run the machine. A copy of letter No.BG/7088 dated the 1st June 1949 from the Agricultural Engineer to Government, Bombay Province, Poona, is enclosed herewith for information The pay proposed, therefore, appears to be quite justified. Beside the Assistant Boring Mechanics in this Circle have to work in out-of-the-way places with great inconvenience to themselves and such candidates will not, therefore, come in this Circle, in case adequate pay scales comparable with their counterparts in other Departments are not given to them. In view of this, a pay scale

of Rs. .....

of Rs. 46-3-85-E.B.-4-105 for Assistant Boring Mechanics in this Circle, was proposed in this office No.G-108 of 17th February 1949.

4. Government may, therefore, please be moved early to sanction thea above mentioned pay scale for Assistant Boring Mechanics in this Circle.

Superintending Engineer,
Karnatak Irrigation Circle.

MAB/11/8/49.

Issued 6/8/1949

Letter.

No.9858/36-E(I). Public Works Department,
Bombay Castle, 12th October 1948.

To

The Superintending Engineer, Special Investigation Circle.

Subject:-Creation of a new Division and a Sub-division in the Special Investigation Circle.

Reference: Your letters Nos.G.108 and G.108/1, both dated the 14th August 1948.

2. Your proposal to create a new temporary Sub-division with an experimental station for problems on irrigation research in Karnatak cannot it is regretted, be accepted. The Soil Research Sub-Division and the Reconnaissance of Irrigation Projects Sub-division can carry out the field investigations required urgently for the design of the new canals.

3. Although it is necessary to have a separate Research Division as for Karnatak, it cannot, it is regretted, be sanctioned for one more year at least due to the shortage of suitable officers. In the meantime, Government is pleased to accept alternative No.1 suggested by you and to direct as under:-

(i) the Hidkal Head Works and the Ghataprabha Left Bank Canal Sub-divisi should be transferred from the Irrigation Projects Division(South) to the Ghataprabha Left Bank Canal Division.

(ii) the Reconnaissance of Irrigation Projects Sub-division (sanctioned in Government Letter No.9858/36-E(I), dated the 27th July 1948) should be attached to your office, the accounts thereof being audited through an imprest account by one of the Divisional Accountants under you.

(iii) the work of underground supplies of water should be transferred to the Soil Surveys Sub-division in the Irrigation Projects Division(South).

(iv) the Head-quarters of the Irrigation Projects Division(South) should be shifted from Belgaum to Dharwar. Before, however, shifting the head-quarters of this Division to Dharwar, you are requested please to report whether suitable accommodation is available there for the office and residence of the Executive Engineer and residence of the members of the staff.

LETTER.

No.9252/36-E(II). Public Works Department,
Bombay Castle, 19th July 1949.

To

The Superintending Engineer,
Karnatak Irrigation Circle.

Subject:- Continuance of temporary establishment.

Reference: Correspondence ending with Government Letter No.9252/36-E(II), dated the 1st March 1949.

2. Government is pleased to sanction the continuance of the Soil Research Sub-Division and the Reconnaisance Irrigation Projects Sub-Division and the establishment as shown in the statement accompanying your letter No. G.47, dated the 15th January 1949, for a further period of one year, upto the 28th February 1950, subject to the following remarks:-

(1) The additional temporary post of Senior Accounts clerk sanctioned in Government Letter No.7573/36-E(II), dated the 5th/10th March 1948, should be continued upto the 28th February 1950, by reducing one of the three sanctioned posts of Junior clerks.

(2) Only one post of Tapali, and not 6 posts as shown in the statement, has been sanctioned for the Soil Research Sub-Division under Government Letter No.8063/36-E(II), dated the 16th May 1947.

(3) The post of the Canal Karkun (Sub-Divisional) sanctioned in Government Letter No.P-190/32/11080-E(II), dated the 15th April 1948, for four months in Kharif season only should be continued on the same condition.

(4) The pay-scale for Auger-Cum-Gauge Measurer is Rs. 46-3-70 and not Rs. 46-3-85 as shown in the statement.

By order of the Governor of Bombay,

for Secretary to the Government of Bombay,
Public Works Department.

D.A.-Nil.
